Intent: This report is designed to track changes to the indicators in the Benchmarks of Quality FCC form that happened inside of the reporting window formed by the start and end date. This is accomplished by showing a chart that displays the changes in the critical element averages in a chart. These averages are calculated by assigning numerical values to each indicator status as shown here:

NA: 0.

Not in Place: 0.

Partially in Place: 1.

In Place: 2.

In addition, this report shows the number of critical element indicators that are NA, Not in Place, Partially in Place, and In Place for each form included in the report.
