*The number of
indicators that are
not in place*

*The number of
indicators that are
partially in place*

*The number of indicators
that are in place*

Criteria: *The criteria used while generating this report.*

Page 1 of 1

Generated: *The date and time that the report
was generated.*

Intent: This report is designed to track changes to the indicators in the Benchmarks of Quality 2.0 forms that happened inside of the reporting window formed by the start and end date. This is accomplished by showing a chart that displays the changes in the critical element averages in a chart. These averages are calculated by assigning numerical values to each indicator status as shown here:

Not in Place: 0.

Partially in Place: 1.

In Place: 2.

In addition, this report shows the number of indicators that are not in place, partially in place, and in place broken down by critical element. These indicator details are shown for each form included in the report.

Criteria Name	Optional?	Description
Start Date	No	This date forms the start of the window that determines what forms to show.
End Date	No	This date forms the end of the window that determines what forms to show.
Program(s)	No	The program(s) to be included in this report.
