Login History Report Documentation
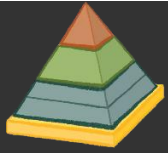

<table>
<tr><td colspan="6">**Pyramid Model Implementation Data System**

Login History Report</td></tr>
<tr><td>**Username**</td><td>**Login**</td><td>**Logout**</td><td>**Logout Type**</td><td>**Role**</td><td>**Program**</td></tr>
<tr>
<td>*The user's username.*</td>
<td>*The date and time that the user logged in. (sorted descending)*</td>
<td>*The date and time that the user logged out.*</td>
<td>*How the user logged out. This may be empty because of the user closing out of the site and getting timed out by ASP.NET.*</td>
<td>*The role that the user logged in as.*</td>
<td>The name of the program that the user logged in under.</td>
</tr>
</table>

Criteria: *The criteria used while generating this report.*   Page 1 of 1

                                                                                                    Generated: *The date and time that the report was generated.*

Intent: This report is designed to help administrators monitor the login history of users of the Pyramid Model Implementation Data System by displaying a complete audit history of user logins and logouts. Logins only show up in the report if the login time was between the start and end date supplied to the report.

Criteria:

Criteria Name	Optional?	Description
Start Date	No	This date forms the start of the window that determines what logins to show.
End Date	No	The date forms the end of the window that determines what logins to show.
